

Notification of Data Security Incident

December 30th, 2025 – On or around November 2, 2025, Mid-South Pulmonary & Sleep Specialists P.C. (“MSPSS”) became aware of certain unauthorized activity within its computer systems. Upon discovery, MSPSS took immediate action to secure our network and investigate the event. This included engaging a third-party team of forensic experts to investigate the incident and determine the full nature and scope of the event. Following a thorough investigation, MSPSS has confirmed that a limited amount of protected health information (“PHI”) may have been subject to unauthorized access in connection with this incident.

The type of information contained within the affected data included first and last name, in combination with one or more of the following: address, date of birth, Social Security number, health insurance information, and medical diagnosis information. Importantly, the information potentially impacted may vary for each individual, and may include all, or just one of the above-listed types of information.

MSPSS takes its legal and regulatory obligations with respect to the privacy and security of PHI seriously and remains actively engaged in the investigative and review process. At this time, MSPSS is undertaking a comprehensive and time-consuming process to review the potentially impacted files. This process is designed to identify the individuals whose information may have been involved and to confirm the data elements associated with impacted individuals, and subsequently notify all potentially impacted individuals as required by law.

In response to this incident, MSPSS has implemented additional security measures within its network and facilities and is reviewing its current policies and procedures related to data security. Patients are encouraged to monitor their account statements and explanation of benefits forms for suspicious activity and to detect errors. Patients may also wish to contact the three major credit agencies to place a fraud alert on their credit report – the credit agencies’ contact information is: Equifax (888-378-4329); TransUnion (833-395-6938); and Experian (888-397-3472).

MSPSS has established a toll-free call center to answer questions about the incident and to address related concerns. The call center is available 8:00 am to 8:00 pm Eastern Time, Monday through Friday, excluding holidays, and can be reached at **833-925-1493**. You may also contact us by email cyberincident@mspulmonary.com or by writing to 5050 Poplar Avenue, Suite 800, Memphis, TN 38157.

The privacy and protection of information is a top priority for MSPSS, and we deeply regret any inconvenience or concern this incident may cause.

STEPS YOU CAN TAKE TO HELP PROTECT YOUR INFORMATION

Monitor Your Accounts

We encourage you to remain vigilant against incidents of identity theft and fraud by reviewing your credit reports/account statements and explanation of benefits forms for suspicious activity and to detect errors. Under U.S. law, you are entitled to one free credit report annually from each of the three major credit reporting bureaus, TransUnion, Experian, and Equifax. To order your free credit report, visit www.annualcreditreport.com or call 1-877-322-8228. Once you receive your credit report, review it for discrepancies and identify any accounts you did not open or inquiries from creditors that you did not authorize. If you have questions or notice incorrect information, contact the credit reporting bureau.

You have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a one-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any of the three credit reporting bureaus listed below.

As an alternative to a fraud alert, you have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without your express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. To request a credit freeze, you will need to provide the following information:

1. Full name (including middle initial as well as Jr., Sr., III, etc.);
2. Social Security number;
3. Date of birth;
4. Address for the prior two to five years;
5. Proof of current address, such as a current utility or telephone bill;
6. A legible photocopy of a government-issued identification card (e.g., state driver’s license or identification card); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft, if you are a victim of identity theft.

Should you wish to place a fraud alert or credit freeze, please contact the three major credit reporting bureaus listed below:

Additional Information

You can further educate yourself regarding identity theft, fraud alerts, credit freezes, and the steps you can take to protect your personal information by contacting the credit reporting bureaus, the Federal Trade Commission (FTC), or your state Attorney General. The FTC also encourages those who discover that their information has been misused to file a complaint with them. The FTC may be reached at 600 Pennsylvania Ave. NW, Washington, D.C. 20580; www.identitytheft.gov; 1-877-ID-THEFT (1-877-438-4338); and TTY: 1-866-653-4261.

You have the right to file a police report if you ever experience identity theft or fraud. Please note that in order to file a report with law enforcement for identity theft, you will likely need to provide some proof that you have been a victim. Instances of known or suspected identity theft should also be reported to law enforcement, your state Attorney General, and the FTC. This notice has not been delayed by law enforcement.
